To disrupt you must transform

71%1 of CEOs plan to radically transform their organisations' operating model – and more than half say that acting with agility is the new currency of business. CFOs have a crucial role to play in delivering these new strategic priorities.

CFOs have important questions

– How does the finance function need to change to enable business agility?
– How do I help my people embrace the change?
– How do I get more value from my data?
– How do I provide the insight and control to oversee wider innovation and transformation?

KPMG teams understand the human factors involved in business transformation. We can help inspire and empower your people and partners to embrace change, as you align your workforce transformation with industry disruption.

A pre-configured Microsoft cloud solution, embedded with years of leading practice and enhanced with automation, Powered Finance enables you to quickly transform and aims to derive maximum value from your move to the cloud.

Powered Enterprise accelerates finance transformation

At the heart of KPMG Powered Enterprise | Finance is a pre-built target operating model that complements Microsoft in the cloud.

It’s not what you put into the cloud that matters, but what you get out of it

Powered Enterprise | Finance provides:

– A jump start to your digital transformation
– Immediate access to leading practices and processes
– Validated solutions with proven real-world usability
– Reduced implementation risks and enhanced ROI
– High-touch change management and employee experience
– A solid platform for continuing evolution and progress

“Powered enables us to see the future, relate it to what we have today and move forward with leading practice.”

– A multinational hospital

“KPMG was a perfect fit for us, bringing the tools and experience necessary for us to make a complete and smooth transition to the cloud.”

– A US building material company
