

Corporate Tax Rates

Substantively Enacted¹ Income Tax Rates for Income Earned by a General Corporation² for 2021 and Beyond—As at September 30, 2021

	Active Business Income	
	2021	2022 and Beyond
Federal rates		
General corporate rate	38.0%	38.0%
Federal abatement	(10.0)	(10.0)
	28.0	28.0
Rate reduction ⁴	(13.0)	(13.0)
M&P deduction ⁵	0.0	0.0
Gross federal rate	15.0	15.0
Provincial rates		
British Columbia	12.0%	12.0%
Alberta	8.0	8.0
Saskatchewan	12.0	12.0
Manitoba	12.0	12.0
Ontario	11.5	11.5
Quebec	11.5	11.5
New Brunswick	14.0	14.0
Nova Scotia	14.0	14.0
Prince Edward Island	16.0	16.0
Newfoundland and Labrador	15.0	15.0
Territorial rates		
Yukon ⁶	12.0	12.0
Northwest Territories	11.5	11.5
Nunavut	12.0	12.0

Refer to notes on the following pages.

All rates must be prorated for taxation years that straddle the effective date of the rate changes. The tax rates in this table reflect federal and provincial/territorial income tax rate changes that were substantively enacted as at September 30, 2021.

The 2021 federal budget proposed to temporarily reduce the small business tax rate to 4.5% (from 9%) and the general corporate tax rate to 7.5% (from 15%) on eligible zero-emission technology manufacturing and processing income. The reduced tax rates apply to taxation years beginning after 2021. The reduced rates are gradually phased out starting in taxation years that begin in 2029, and are fully phased out for taxation years that begin after 2031. Legislation to enact this proposal has not been released as of September 30, 2021. Finance accepted stakeholder comments on this proposal until June 18, 2021.

Substantively Enacted¹ Income Tax Rates for Income Earned by a General Corporation² for 2021 and Beyond—As at September 30, 2021

Notes

- (1) For Accounting Standards for Private Enterprise (ASPE) and International Financial Reporting Standards (IFRS) purposes, a corporation's recorded income tax liabilities and assets in their financial statements should be measured using tax rates that are considered to be "substantively enacted" at the balance sheet date. In general, where there is a majority government, federal and provincial tax changes are considered to be "substantively enacted" for ASPE and IFRS purposes when a tax bill containing the detailed legislation is tabled for first reading in the House of Commons or the provincial legislature. In the case of a minority government, however, the "substantively enacted" test is more stringent and requires the enabling legislation to have passed third reading in the House of Commons or the provincial legislature.

For U.S. Generally Accepted Accounting Principles (U.S. GAAP) purposes, a corporation's recorded income tax liabilities and assets in their financial statements should be measured using tax rates that are considered to be enacted at the balance sheet date. In general, tax rate changes are considered enacted once the relevant bill has received Royal Assent.

When tax rate changes are considered enacted or "substantively enacted", the effect of the change in tax rate is reflected in the period in which the changes are enacted or "substantively enacted". The effect of the change is recorded in income as a component of deferred tax expense in the period that includes the date of enactment or substantive enactment. For example, if a bill becomes "substantively enacted" for ASPE or IFRS purposes (enacted for U.S. GAAP purposes) on December 31, the tax rate changes should be reflected in the corporation's financial statements for the quarter that includes December 31.

- (2) The federal and provincial/territorial tax rates shown in the tables apply to income earned by corporations other than Canadian-controlled private corporations (CCPCs). A general corporation typically includes public companies, and their subsidiaries, that are resident in Canada, and Canadian resident private companies that are controlled by non-residents.
- (3) The federal and provincial/territorial rates shown in the tables apply to investment income earned by general corporations other than capital gains and dividends received from Canadian corporations. The rates that apply to capital gains are one-half of the rates shown in the table. Dividends received from Canadian corporations are generally deductible in computing regular Part I tax, but may be subject to Part IV tax, calculated at a rate of 38 1/3%.

Substantively Enacted¹ Income Tax Rates for Income Earned by a General Corporation² for 2021 and Beyond—As at September 30, 2021

- (4) A general tax rate reduction is available on qualifying income. Income that is eligible for other reductions or credits, such as small business income, manufacturing and processing (M&P) income and investment income subject to the refundable provisions, is not eligible for this rate reduction.

Income of a corporation earned from a personal services business is not eligible for the general rate reduction and is subject to an additional 5% tax, which increases the federal tax rate on personal services business income to 33%.

- (5) Corporations that derive at least 10% of their gross revenue for the year from manufacturing or processing goods in Canada for sale or lease can claim the (M&P) deduction against their M&P income.
- (6) Yukon provides a manufacturing and processing tax credit that effectively reduces the corporate tax rate on the corporation's Canadian manufacturing and processing profits earned in the Yukon to 2.5%.

The information contained herein is of a general nature and is not intended to address the circumstances of any particular individual or entity.
