The Academy is pleased to introduce a seminar on the three stages of the audit process, as per the International Standards of Auditing (ISAs): risk assessment, testing and completion. This seminar is among a new series of Audit courses offered by the Academy’s trainers who recognized that External Auditors are continually facing intense pressure to be more efficient in conducting audit without compromising quality and effectiveness. This course will be delivered by a Partner and two Audit Managers of KPMG in an effort to assist Auditors to efficiently perform the audit process. Participants will learn, among other, how to apply the risk assessment procedures effectively, proper testing techniques, how to document them in the audit file and the importance of the completion stage of the audit process.

Participants*
The seminar is essential for Audit Professionals and Accountants who wish to improve their ability to conduct an efficient audit and enhance audit quality and effectiveness.

Course Content
- Introduction (20 min)
