Dear Sir / Madam,

We present to you the thirty ninth edition of our Software Licensing Bulletin, which highlights information on Microsoft® licensing.

- Windows 10 Pro Full version is only available via Full Product Package (FPP-retail) channel. It does not have any downgrade rights to previous version.
- Windows 10 Pro OEM (bundled with a new PC) can be downgraded to Windows 8 Pro or Windows 7 Pro only not to Windows Vista or Windows XP.
- Windows 10 GGS (Get Genuine Solutions) can be downgraded to Windows Vista or Windows XP.
- Windows 10 Enterprise is only available as a SA (Software Assurance) benefit for Volume license customers who have purchased Windows 10 Pro Upgrade License.
- A GGS licence is non-transferrable just like an OEM (Original Equipment Manufacturer) License. However, OS upgrade licence purchased via VL (Volume Licensing) if covered with SA can be transferred to a new PC.
- FPP licence can be transferred to a new PC.

We hope the bulletin was informative. We would be happy to arrange for any additional information that you may require on the subject. Please write to us at in-fmkpmgccsbulletin@kpmg.com, for any queries or feedback.

Regards,
KPMG in India
