Dear Sir / Madam,

We present to you the fortieth edition of our Software Licensing Bulletin, which highlights information on PTC® licensing.

- **Home use licenses / Portable licence enabler licenses:**
  
  If the customer’s licence is a ‘home use’ licence, such licence is only for use within the home of an employee or contractor of the customer who is a primary user of a separate non-home-use licence of the same product.

- **PTC navigate:**
  
  The licensing basis for PTC navigate is registered user or active daily user, as specified in the quote. “Active daily user” means that the product is licensed on the basis of the number of unique users who access a PTC navigate application at any time during a twenty hour calendar day. For example, if a user accesses a PTC navigate application three times on a Monday and two times on the following Friday, then the user is counted as an active user for Monday and Friday only. The twenty four hour period is defined using the time zone set for the connected ThingWorx server.

  The PTC navigate – View licence grants the customer the right in six different ways, however the customer may not use any functionality not included in the list provided as per licensing basis. For the sake of clarity, without limitation, the PTC navigate – View licence specifically does not authorise customer to use the product with more than six restrictions.

We hope the bulletin was informative. We would be happy to arrange for any additional information that you may require on the subject. Please write to us at in-fmkpmgccsbulletin@kpmg.com, for any queries or feedback.

Regards,

KPMG in India
