Dear Sir / Madam,

We present to you the forty-second edition of our Software Licensing Bulletin, which highlights PTC® license restriction information for multiple products.

Subscriptions: A ‘subscription’ is a license type that includes a licence for a term as specified in the product name, quote and/or the invoice, and such licence includes Support Services during such licence term at no additional fee.

Virtualisation Technologies: Although in some cases it may be possible through the use of virtualisation technologies to circumvent the license control mechanisms that PTC employs in order to enforce the above licensing schemes, or to circumvent the intent of such licensing schemes, such practices violate the Customer’s License Agreement with PTC. Without limiting the foregoing, Customers may not install or access Designated Computer licenses (also sometimes referred to as node locked licenses) on or through virtualisation technologies.

Upgrades: For PTC software licensed as an upgrade from a previous version, the Customer must first be licensed for the software identified by PTC as eligible for the upgrade and Customer must be active on Support Services for such software at the time Customer purchases the relevant upgrade. After installing the upgrade, the software licensed as an upgrade replaces and/or supplements the product that formed the basis of the Customer’s eligibility for the upgrade and the Customer may no longer use the original software that formed the basis for the Customer’s upgrade eligibility.

Interoperability Tools/Toolkits: PTC interoperability tools (e.g., Pro/TOOLKIT, or J-Link, Pro/Web. Link and application programming interfaces) are provided solely for purposes of enabling the Customer (itself or with the assistance of a third party) to cause the Licensed Products to interoperate with the Customer’s other computer systems and programs. Customer shall not distribute to any third party all or any part of any such interoperability tool or use such interoperability tools to develop an integration for distribution to third parties. The foregoing does not apply to PTC’s MKS® toolkit.

We hope the bulletin was informative. We would be happy to arrange for any additional information that you may require on the subject. Please write to us at in-fmkpmgccsbulletin@kpmg.com for any queries or feedback.

Regards,
KPMG in India
