Dear Sir / Madam,

We present to you the seventy seventh edition of our Software Licensing Bulletin, which highlights details on Red Hat® Enterprise Linux Add-Ons & Server support options.

Add-Ons:
- Red Hat Enterprise Linux Server Subscriptions may be purchased with one or more add-on options ("Add-On(s)").
- Add-Ons require a separate paid and active Software Subscription for each Unit that deploys, installs, uses or executes such Add-On.
- Each Unit of Add-Ons
  - must match the Unit of Measure and capacity as the underlying Red Hat Enterprise Linux Unit and
  - inherits the Support Level (Standard and/or Premium) of the underlying Red Hat Enterprise Linux Unit.
- Add-Ons are not supported on Red Hat Enterprise Linux Subscriptions with a Self-support service level except Smart Management Add-Ons.
- The Add-Ons include:
  - High Availability,
  - Load Balancer,
  - Resilient Storage,
  - Scalable File System,
  - Smart Management,
  - Extended Update Support,
  - Extended Life Cycle Support and
  - Red Hat Insights.

Server Support Options:
- Red Hat Enterprise Linux Server Subscriptions may be purchased with various levels of Production Support including Self-support, Standard and Premium Support Levels.
- Note that not all Production Support options are available for all Red Hat Enterprise Linux Server Subscriptions, configurations or customers.

For example, Self-support is available only for (a) Systems without Add-Ons (except Smart Management); and (b) customers who do not have a Red Hat Technical Account Manager.

We are conducting a knowledge sharing breakfast session on "Effectively managing SAP licensing risks" topic across various cities.

Gurugram – 7 June
Mumbai – 12 June
Pune – 13 June

We hope the bulletin was informative. We would be happy to arrange for any additional information that you may require on the subject. Please write to us at in-fmkpmgccsbulletin@kpmg.com, for any queries or feedback.

Regards,
KPMG in India
