

Exciting career opportunity

Manager – Intelligent Accounting Change

KPMG is a global network of professional firms providing Audit, Tax and Advisory services, with an industry focus. The aim of KPMG is to turn knowledge into value for the benefit of our clients, people, and the capital markets. KPMG has a notable 'African Footprint' and is well used to serving clients across the continent. Our East Africa practice comprises Kenya, Uganda, Tanzania and Rwanda. The Nairobi office serves as the regional coordinating office providing the required networking to facilitate delivery of services on a timely basis to meet and exceed our clients' expectations.

Key roles and responsibilities

- Driving the finance of the future agenda through embedding technology into day to day operations.
- Managing accounting related engagements by leading small teams. In some instances, leading the intelligent accounting teams' inputs into larger, multi-disciplinary teams.
- Planning and managing client engagements and project budgets while providing quality work on engagements.
- Providing technical knowledge, direction and training to engagement teams to produce quality deliverables on time and on budget.
- Developing and maintaining relationships with decision makers at key clients while impacting on revenue and client relationships through innovation.
- Contributing to proposals development efforts by driving market initiatives.
- People management and performance development.
- Working with senior management teams to formulate strategies and plans, ensuring implementation of the function's strategic initiatives.
- Involvement in community and office initiatives such as CSI and business unit initiatives.
- Building and maintaining strong relationships with both clients and KPMG individuals.

Qualifications and experience

- Qualified accountant (Chartered Accountant or equivalent).
- Bachelor's degree in commerce, finance/accounting, economics with a bias towards technology related courses.
- Very strong technical accounting in IFRS.
- Demonstrated working knowledge of accounting and Enterprise resource planning (ERP) systems as well as data analytics solutions.
- At least seven (7) years in career history in a similar role in terms of scale and complexity.
- Experience of managing teams.
- Ability to think laterally and analyse scenarios while drawing suitable conclusions and knowledge of leading practices in financial management, accounting concepts and project management.
- Demonstrated ability to lead implementation of technology solutions aimed at delivering extreme finance automation, process improvements, boosting foundation automation by deploying adaptive technologies, embed digital analytics, lead progressive data management and mining of untapped data sources.
- Strong understanding of recent developments in accounting.
- Analytical ability and attention to detail.
- Problem solving attitude and ability to apply accounting concepts to unusual one-off situations.

Skills and attributes

- Good communication skills both written and oral
- Strong leadership and organizational skills
- Thrive under pressure and fast pace while delivering high quality deliverables
- A self driven and result oriented individual able to work with minimum supervision
- Be able to effectively support all aspects of engagement delivery end to end
- Open minded and curious about accounting, finance and regulatory developments globally
- Excellent business writing skills
- A high standard of integrity

We offer

- Exciting unparalleled exposure to accounting technical skills, competencies and tools;
- Continuous learning and development;
- Exposure to multidisciplinary client service teams; and
- Unrivalled space to grow and be innovative.
