One Due-Diligence

Supporting your growth agenda by helping
you buy the right assets at the right price

Our integrated specialists combined with KPMG's proprietary technology tools helps our clients focus on value drivers, key risks, and opportunities to generate the insights to unlock value and realize their potential

One DD

Financial due diligence

Examine the fundamentals of the potential transaction, test the investment thesis and provide a deep analysis of the critical areas that will enhance value. Identify adjustments to earnings, historical performance, benchmarking, forecast assumptions, the rights, and obligations that will be inherited through the balance sheet.

Accounting Advisory due diligence

Impact assessment between Cambodian IFRS for SME and IFRS on the target company's financial statements. Provision of CIFRS for SME and IFRS training.

Forensic/ Integrity due diligence

Identify and assess bribery and corruption risks as well as the compliance programs in place to mitigate such risks. We also deploy a wide array of data analytic tools and forensic technology to quickly and efficiently analyze potential bribery and corruption risks or any management manipulation that will impact on the potential valuation of the target and the overall return on investment.

IT due diligence

Review the robustness and scalability of IT applications, infrastructure and processes, and their ability to meet current business objectives and plan in line with top-line growth objectives. We also provide product due diligence services, reviewing the capabilities of IT products versus claimed benefits, competitors' offerings, and against market developing capabilities.

HR due diligence

Take the pulse of the current labour compliance situation of your target, focusing on labor contracts, occupational health, safety compliance, HR policies, rewards, compensation, organizational structure, and salary benchmarking. We will provide you with a clear picture of the target's labour compliance situation and provide a roadmap of remedial actions to ensure that post-acquisition, the target's value potential, is realized.

Tax due diligence

Review, identify, and assess non-compliance and historical tax exposures of the business. Our highly experienced M&A tax team can also help our clients take advantage of transaction opportunities, creating tax efficiencies including advising on tax efficient investment structures, M&A, and corporate restructuring.

Commercial due diligence

Analysis of target's market environment, competitive positioning, and impact on the target's business plan. Evaluate market attractiveness, risks, growth potential, and sense check business assumptions.

Legal due diligence

Identify compliance gaps in the vendor's business with a keen focus on developing solutions and recommendations to address the same via various mechanisms, such as restructuring to minimize historical liabilities, price adjustment or completion accounts, clearly thought out and on-point conditions precedents or conditions subsequent to remedy identified issues, or putting in place other contractual arrangements to shift risk.

Operational due diligence

Analyze historical, current operating performance, and processes; evaluate potential capital expenditure requirements. Identify operating bottlenecks and potential synergies.

Governance due diligence (including Sustainability, EHS)

Screen governance, board operation and senior management monitoring to provide a comprehensive assessment on governance and sustainability risks. We diagnose a range of aspect, including but not limited to governance structure, board and senior management remuneration and performance, authority delegation, decision making scheme, business planning and monitoring, people and performance management, compliance management, risk management, assurance, sustainability and EHS oversight to identify top risks of the target and analyses impacts on the potential valuations.

Leverage our proprietary technology tools to bring 'deal specific' insights through tailored analysis of Target's data*

* To the extent data is available
