

Eric Muscat

Partner, IT Advisory
KPMG in Malta

Eric has over 25 years experience working in various Information Technology functions covering the entire spectrum of the systems development lifecycle, IT project management, IT strategy, selection and implementation of IT solutions, process re-engineering, IT risk management, learning strategies and change management. Eric is responsible for a team of professionals engaged on IT Advisory projects covering IT project management , systems implementation, business intelligence, data & analytics, IT assurance, IT governance and IT security within the Financial Services, Transportation and Gaming sectors. His main focus is the bridging of the technology / business gap and can relate well to the C-level within organisations. Eric founded the KPMG CIO Agenda in Malta which brings together CIOs and CTOs into a community to exchange ideas, explore emerging trends and question avant garde technologies.
