

Audit Committee Meeting Agenda

A detailed agenda is vital for keeping the committee focused. Effective agendas are set with input from the CEO, CFO, CRO and the internal and external auditors. The audit committee chair however, should maintain accountability for the agenda and should not allow management to dictate the content.

Meeting agendas ultimately drive the work the audit committee does. For this reason audit committee agendas should be closely linked to the committee’s terms of reference. The audit committee agenda for the year should ideally originate from a detailed work plan. A wide ranging work plan helps members focus on their job. However, the nature of audit committee responsibilities and the ever-changing environment in which companies operate make it difficult to determine a fixed agenda of

topics for each meeting. The committee should assess what is currently important and develop its agenda accordingly. The detailed work plan would originate from the terms of reference.

This document provides a pro-forma of an audit committee meeting planner, that can be used to plan what gets addressed at each audit committee meeting. It should be tailored to suit the needs of each organisation.

	Frequency			Scheduled meetings			
	At least annually	Quarterly	When necessary	Quarter 1	Quarter 2	Quarter 3	Quarter 4
Constitution							
Review audit committee’s terms of reference	<input type="checkbox"/>
