KPMG observation

While the Philippine tax office has not yet taken concrete steps to enforce the transfer pricing regulations, there is an indication that they will follow the Organisation for Economic Co-operation and Development (OECD) Transfer Pricing Guidelines. This will allow taxpayers to be consistent with the transfer pricing strategies of the group of companies they belong to.

Transfer pricing study overview

Can documentation be filed in a language other than the local language? If yes, which ones?
Yes, English.
When a transfer pricing study is prepared, should its content follow Chapter V of the Organisation for Economic Co-operation and Development (OECD) Guidelines?

Yes. RR No. 02-2013 enumerates the details of what should be the contents of an adequate documentation. The details include, but are not limited to, the following:

1. organizational structure
2. nature of the business/industry and market conditions
3. controlled transactions
4. assumptions, strategies, and policies
5. cost contributions assumptions, strategies, and policy arrangements
6. comparability, functional and risk analysis
7. selection of the transfer pricing method
8. application of the transfer pricing method
9. background documents; and
10. index to documents.

Transfer pricing audit and penalties

When the tax authority requests a taxpayer’s transfer pricing documentation, are there timing requirements for a taxpayer to submit its documentation? And if so, how many days?

No.

When the tax authority requests a taxpayer’s transfer pricing documentation, are there timing requirements for a taxpayer to submit its documentation? Please explain.

RR No. 02-2013 does not specify this. However, following rules under a regular tax audit, documents supporting the taxpayers’ defenses are usually submitted within 15 to 30 days of the request, subject to extension if allowed.

If an adjustment is proposed by the tax authority, what dispute resolution options are available?

RR No. 02-2013 remains silent on transfer pricing specific dispute resolution options and procedures. However, there are remedies available to taxpayers in the context of regular audits (for taxes of all types), such as protests, appeals and going to the courts. It is expected that these remedies will apply in the case of transfer pricing audits.

If an adjustment is sustained, can penalties be assessed? If so, what rates are applied and under what conditions?

It is expected that penalties can be assessed in the case of transfer pricing adjustments. The penalties are expected to be the same as those imposed under regular tax audits (25 percent/50 percent surcharge; 20 percent deficiency interest; 20 percent delinquency interest; compromise penalties).

To what extent are transfer pricing penalties enforced?

Not yet known since the implementation of RR No. 02-2013 is in the early stages.

What defenses are available with respect to penalties?

Not yet known since the implementation of RR No. 02-2013 is in the early stages.

What trends are being observed currently?

Before the introduction of the recent transfer pricing regulations, the tax office is known to have transfer pricing related findings in conducting regular audits. Hence, the timely submission of documentation may be useful to contest deficiency tax findings. The documentation may also be a defense against possible benchmarking performed by the tax office based on industry averages.

Special considerations

Are secret comparables used by tax authorities?

Not yet known since the implementation of RR No. 02-2013 is in the early stages.
