Global Cross-border Mobility Solutions

Compliance Services

Today's mobile workforce faces the challenge of keeping up with new compliance rules.

To address this, KPMG R.G. Manabat & Co.'s Global Mobility Services (GMS) practice brings together a wealth of tax, technology and immigration services to provide an easier, safer and more efficient way of managing your workforce.

A Streamlined Tax and Immigration Service Assistance

Our mobility solutions are designed to provide the expatriate synchronized compliance with the requirements of the Bureau of Immigration and the Bureau of Internal Revenue. At the time an expatriate's work permit and visa are applied for, their corresponding tax filing requirements have already been given attention.

With our integrated tax and immigration service delivery model, we endeavor to deliver exponential value and superior coverage across the globe.

Tax

- Departure and arrival tax briefings
- Personal tax return preparation
- Hypothetical tax calculations and reconciliations

What we do:

- Support the company's expatriates in remaining globally tax compliant;
- Advise the company and the expatriate on how to derive long-term tax savings;
- Design an international assignment program that supports the company's overall business strategy; and
- Anticipate and communicate complex issues that may arise (e.g. Double Taxation).

Immigration

What we do:

- Assess the appropriate Philippine visa and work permit;
- Support Human Resources in the preparation and submission of documentary requirements;
- Track relevant submission deadlines and dates of expiration of visas and work permits; and
- Advise new and updated immigration policies.

The clear choice

To help align your global strategy with business objectives, we provide:

- A clear and transparent approach with deep practice experiences in providing tax services;
- Tax seminars for clients to ensure accurate and timely tax reporting; and
- Innovative, flexible programs and streamlined solutions based on the needs of your workforce.
