

CYBER RANGE

ULTRA REALISTIC
CYBER TRAINING.

**KPMG
BUSINESS
SCHOOL**

The Business School
for the Real World

KPMG CYBER RANGE IS AN ULTRA REALISTIC TRAINING SIMULATOR AGAINST CYBER ATTACKS

**Ensure the best training for IT and
cyber security professionals to detect,
prevent and recover from threats.**

**SIMULATE YOUR
ENVIRONMENT.
TEST.
DESTROY.
START AGAIN.**

HOW IT WORKS

STEP 01: REPLICATE YOUR IT NETWORK

CREATE A CLONE OF YOUR IT ENVIRONMENT

Simulate any hardware applications, network security devices, security protocols and policies.

STEP 02: TEST YOUR PEOPLE AND YOUR SYSTEM

SIMULATE THE DEADLIEST CYBER ATTACKS

Simulate cyber attacks in real time against a copy of your IT network so you can test your IT system and train your people.

STEP 03: RE CREATE AND START AGAIN

POWER NEW CLONES OF YOUR NETWORK, ON DEMAND

Power up your IT environment, destroy it, recreate it, change it, on demand, as many times as you wish.

WHAT YOU CAN DO WITH IT

TRAIN

Your people to detect, prevent and recover from any cyber threat. Replay attack scenarios until you master them 100%.

TEST

Your people's skills, your system and your network breaking point. Conduct full penetration testing in real time.

VALIDATE

Your security infrastructure, harden your defenses and predict performance.

Course Highlights

BOARDROOM INCIDENT RESPONSE

A crisis hits and the board has to respond.

To teach them to think straight,
trainers throw some curve balls.

Everyone learns a process to keep cool
and make clear decisions. The result is a
company that is panic proof.

Course Highlights

RED VS. BLUE TEAM TRAINING

Red team attacks. Blue team defends.

Both teams learn the latest cyber attack patterns, how to spot them and prevent them in real time.

It's role play, not 'play-play'.

FALL 7 TIMES. STAND UP 8.

Fail as much as you want,
till you learn to stand.

BENEFITS OF OUR CYBER RANGE.

MASSIVE SAVINGS

No investment in expensive hardware, software or licenses.

UP TO DATE

Prepare against the latest attacks thanks to a database of threats updated constantly.

SUPER SAFE

Everything is virtual so no real damage can happen. You can also trust KPMG to protect the confidentiality of your IT infrastructure at all times.

HOLISTIC

Master both attack and defence by training from both angles through role play simulation (Red & Blue team).

SCALABLE

Our cyber range can scale vertically and horizontally to address today's growing network traffic volume and ever-more complex attack vectors.

STATE OF THE ART

Our facility is designed specifically for high end simulation and packed with the most advanced hardware and software available.

REAL TIME

Gain real time crisis management skills and be confident that your people will know what to do.

EASY & FLEXIBLE

Our technology makes it easy to create and deploy multiple threat patterns and scenarios, at the push of a button.
