Introduction to successful programmes

A successful change programme...

Has a clear vision which stays in focus throughout

Focuses on the benefits for the company, employees and investors

Incorporates and embeds both system and cultural changes

Manages the risks

Has strong stakeholder support

Helps maintain competitive advantage

Managing change is a complex and costly issue and the risk of failure is high. And in an increasingly 'VUCA' (volatile, uncertain, complex, and ambiguous) world which brings revised regulation, new disruptive technologies, new business models and cyber security threats the pace of change is increasing. How confident are you that your change programmes will deliver?

KPMG client quotes

KPMG's independent programme assurance methodology, Global Enterprise Transformation Tool (GETT) and team of programme assurance and financial services experts will help to ensure your programmes are rigorously tested and proven.

“ The KPMG team has shown tenacity, objectivity and courage in pursuit of the goal of helping de-risk our vital change programme. ”

CEO – Wealth Company

“ Given how important the findings are it's rare that a review of this kind lands smoothly. However, KPMG managed to engage with management throughout the entire process such that there were no surprises and or ill feeling. I should emphasise here how difficult this is to achieve in practice. ”
