

Unlock potential

KPMG Powered Enterprise | Procurement

Resilience requires transformation

Many CEOs are looking to transform their operating models, recognising that agility is key. CHROs have a pivotal role to play in how the organisation and its people respond.

CPOs have important questions

- How can procurement help unlock transformation?
- Can I be a better partner to my business?
- How do I move away from a mix of models and processes?
- Can I drive value with richer spend analytics?
- What is the best way to make change happen smoothly?

Powered Enterprise accelerates procurement transformation

At the heart of KPMG Powered Enterprise | Procurement is a pre-built target operating model that complements Coupa in the Cloud.
