Driving Factors to Privatize SOEs

The gap between State Budget revenue and expenditure is increasing over the years and the Government is facing a constant fiscal deficit.

Current State Budget Balance situation

Revenue Expenditures

Over-spending
Driving Factors to Privatize SOEs

The push to integrate into the **global economy** as well as participation in **regional free trade agreements** are advancing structural reform of the public sector and reducing protectionist tariffs and duties.

- FTAs in negotiations:
  - RCEP (ASEAN+6)
  - ASEAN - EU
  - Vietnam - Ireland
  - Vietnam - Custom Union

- FTAs in consideration:
  - ASEAN - Canada

- FTAs concluded:
  - 2016: TPP
  - 2015: Vietnam - Korea, Vietnam - EU*
  - 2011: Vietnam - Chile
  - 2009: ASEAN - Australia/ New Zealand
  - 2008: ASEAN - Japan
  - 2002: ASEAN - China
  - 2003: ASEAN - India
  - 2001: ASEAN - Korea
  - 1995: ASEAN
Driving Factors to Privatize SOEs

Growth of GDP has been bolstered by domestic demand and manufacturing exports. The influx of FDI attracted by Vietnam’s participation in the FTAs and TPP process also are transforming sectors previously occupied by SOEs.

Registered And Disbursed FDI

Driving Factors to Privatize SOEs

Performance of SOEs

The number of SOEs in Vietnam has decreased significantly during the period of 2011 – 2015 from 1,309 to approximately 958 SOEs, with plans to reduce to 190 SOEs by 2020 according to the equitization plan of the government.

Source: Stoxplus
Progress of Divestment from SOEs

- **2011-2015**: almost **600 SOEs were equitized**, or 96 per cent of the targeted number. The number of SOEs has since fallen from some 6,000 to over 700 during the past 15 years. *(Vietnam News)*.

- **2016-2020**: the Government will hold 100% stake at 103 SOEs, while **137 others will be equitized**.

- Within Q1 2017, Vietnam State investment arm SCIC has **divested 9% of its capital from Vietnam Dairy Products JSC (Vinamilk)**, a leading dairy producer in Vietnam with annual revenue turnover in 2016 of about USD1.7bn.
SOEs | Proposed Divestment Ratios

- Viet Nam Air Traffic Management Corporation ("VATM")
- Vietnam Railways Corporation ("VRC").
- Vietnam Natural Resources and Environment Corporation
- Vietnam Lottery (VietLott)
- Vietnam Construction Bank ("CB"), etc.

- PetroVietnam Exploration Production Corporation ("PVEP")
- Vietnam National Coal and Mineral Industry Holding Corporation ("Vinacomin") – Parent company
- Bank for Agriculture and Rural Development (Agribank), etc.

- Vietnam National Tobacco Corporation ("Vinataba")
- Vinafood 1
- Vinafood 2
- VNPT Parent Company
- Mobifone
- Vietnam National Coffee Corporation ("Vinacafe"), etc.

- Genco 1, 2, 3 under Vietnam Electricity ("EVN")
- Song Da Corporation
- VTV Cab
- Vietnam Shipbuilding Industry Corporation ("SBIC"), etc.

Vietnam's Equitization Process and Key Considerations for Strategic Investor

18 May 2017

MS. HA DO
Senior Partner, KPMG Hanoi
Head of State-Owned Enterprise and Infrastructure Practice
htdo@kpmg.com.vn
Vietnam Equitization Process (1/3)

- On 18th July 2011, the Government promulgated Decree 59/2011/ND-CP on ‘Conversion of Enterprises With 100% State-Owned Capital Into Shareholding Companies’ (“Decree 59”), which later on had subsequence amendments.

- **Objectives of equitization:**
  - Convert enterprises in which it is unnecessary for the State to own 100% capital into enterprises with multiple owners;
  - Mobilize capital from both domestic and foreign investors;
  - Increase financial capacity; and,
  - Renovate technology and managerial methods in order to raise the efficiency and competitiveness of the economy (Article 1 of Decree 59).
Vietnam Equitization Process (2/3)

- The authorized body shall fix the appropriate method of share sale
  - The Ministry of Industry and Trade, Ministry of Finance, Ministry of Labour, the Ministry of Natural Resources and Environment, Ministry of Planning and Investment, the State Bank of Vietnam, Vietnam Social Insurance, the State auditor and other relevant bodies shall be responsible to guide implementation.

- If an enterprise undergoing equitisation has more than VND 30bn (c. a. USD 1.2mn) in total asset or state owned capital of more than VND 10bn (c.a. USD 0.4mn), it must hire a third party institution with a valuation function to conduct enterprise valuation.
Sample Strategic Investor Selection Process for SOEs

1. Registration by investors
2. SOE review and short-list investors
3. SOE submits equitization plan including the short-list of investors
4. The Government reviews and approves the equitization plan
5. SOE officially invites investors to participate in the offering process

- Due Diligence / Negotiation -

6. Investor submits the share subscription form
7. SOE issues the offering regulation ([reserve price]) and investors deposit an amount not exceeding 10% of subscription amount
8. SOE selects investors through direct negotiation and/or auction process

3* or less investors shortlisted

- Shares oversubscribed

Direct Negotiation

- More than 3 investors shortlisted

- Shares undersubscribed

Auction process

- Bids selected in descending order until all shares are sold

* Maximum number of strategic investors allowed to purchase shares
