IFRS: New standards

Which standards are mandatory for your financial year?

How to read the chart

Find the start of your financial year on the timeline. Each standard shown is either effective for the first time or not yet effective but available for early adoption, depending on whether the line is solid or hollow.

If your financial year starts on 1 January 2017, then the standards from the disclosure initiative to the 2014–2016 cycle of annual improvements (amendments to IFRS 12) are mandatory for the first time. The others are not yet mandatory in your annual financial statements for the year ended 31 December 2017.

 Standards effective for the first time.

In this publication, the term 'standards' is used broadly to refer to new standards, and amendments to or interpretations of standards. It also assumes a financial year of 12 months.
